

M D F 3 D

RELIEF  
WALL COVERING

Wall'in

Wall'in is pleased to present its range of MDF 3D panels. These panels in medium offer a choice and an exceptional rendering to dress your interiors. The panels are thus sculpted in the mass for a surprising 3D effect. The patterns follow one another to provide continuity between the panels.

They are offered pre-painted white, which offers a multitude of possibilities to dress your wall with the color of your choice. These panels are also available tailor-made, with a maximum dimension of 2750x1250mm. Add to that a light on the panels, and you will bring out the reliefs by a set of shadows of the most beautiful effect. A modern effect, design and terribly trendy to give a new dimension to your pieces.
