

# NATURAL WOOD PANEL

RELIEF  
WALL COVERING

Wall'in

Wall'in is pleased to present its range of recycled and natural wood panels. The cladding are made up of various species, with old wood (spruce and pine) and new wood (birch, ash, alder and oak, as well as different lengths, widths and thicknesses. Once assembled, transform your interiors into a unique place.

The surface can have different shades : from gray to brown or from light yellow to black, many possibilities to create the mood of your choice. Most of these siding has stood for many years to heat, storm, cold, wind ! Add to that a light on the panels, and you will bring out the reliefs by a play of shadow of the nicest effect.
